

We Tell

We have nothing to conceal! No secrets to hide! We publish the formulas of all our medicines. You will find these in Ayer's Almanac for 1906. If you do not have a copy we will gladly send you one. Then show the formulas to your doctor. If he does not approve, then do not buy; if he approves, then buy, and keep these standard family medicines on hand.

Ayer's Sarsaparilla. Ayer's Pills. Ayer's Cherry Pectoral.

THE SCHOOL ELECTION.

With two first-class men in the field for school director, there is really no issue. Both candidates are understood to stand for the cause of good schools. The election will be held Monday, June 18th between the hours of 2 and 6 p. m., all men and women paying taxes to vote.

The formality of a high school election is also to be carried out, Mr. Condit having raised a legal point assailing the legality or validity of the high school.

So another vote must be had to quiet forever the charge that this community has failed to fully express itself in favor of a high school.

NEEDS A GYMNASIUM.

The Salem public schools need a gymnasium outfit as much as they do higher grades.

There is a large room that can be fitted up at moderate expense, and it should be done.

If the school board cannot make an appropriation for this the funds should be secured otherwise.

It is no longer practical for every young man and young women to get open air exercise in the fields and in the woodshed.

The weather will not permit of doing stunts each day outdoors, and the gymnasium is needed by the students as by no other class.

With a large increase in the assessed valuation there is no reason why the Salem school board should not take up the matter of a gymnasium.

The public school is the college of the masses, and there is not a good reason why there should not be the ordinary provisions for athletic exercise indoors for boys and girls.

HARD HIT BY EARTHQUAKE.

Many Newspaper Men Thrown Out of Positions in San Francisco.

Mrs. Elizabeth H. Gregory, a newspaper woman of San Francisco now in Indianapolis, tells the News of that city of some of the hardships caused newspaper men by the earthquake. She says:

"The 'trembler' left many scribes in hard luck, and it was with difficulty that some even obtained transportation to their eastern homes, as the railroads were endeavoring to keep single men for manual labor. One reporter found it necessary to coat his face with patches and carry a physician's certificate in order to secure free passage.

"The Chronicle not only discharged a portion of its staff, but those retained had their salaries reduced. No salaries were paid for two weeks, and when the envelopes were received there was a shortage of \$10 and a notification that salaries had been reduced \$5 a week.

OF INTEREST

TO YOUNG MEN

"If there is one thing that is not listed among antiques it is opportunity."—Sat. Eve. Post.

Never in the history of the world have the young men had the chance they have today—the chance to make something of themselves—the chance to accumulate money and become recognized as solid, influential citizens.

One of the preparatory steps is to start a bank account—it will be a real help all your life. Our Savings Department pays three per cent on savings accounts.

Savings Department
Capital National Bank

"Although funds were raised to replenish lost libraries of physicians and lawyers and to aid other professional men, no provision was made to compensate the losses of the newspaper reporters and editors, many of whom lost everything in the fire."

ANNIVERSARY OF SLOCUM DISASTER

Recalls Terrible Loss of Life Among Sunday School Children.

New York, June 15.—The anniversary of the Gen. Slocum disaster, which occurred two years ago today, was observed in this city today in an impressive manner. Memorial services were held at St. Mark's church in East Sixth street and were attended by hundreds of people who had lost relatives in the catastrophe.

In the afternoon there will be exercises at the monument, which was erected last year over the graves of the unknown dead in the Lutheran cemetery at Middle Village, L. I. The monument stands on St. Mark's hill, one of the most commanding elevations in the cemetery grounds. It is expected that several thousand people will be present at the exercises. Several memorial addresses will be delivered.

The excursion steamer General Slocum, having an excursion party of the Sunday school of St. Mark's church, mostly women and children, on board, caught fire while steaming up East river on June 15, 1904, and burned to the water's edge, after being run into shallow water at North Brother island. One thousand and thirty-one persons were burned or drowned, while 266 persons were more or less severely injured. Capt. William H. Van Schaick, the master of the General Slocum; the pilot, Frank A. Barnaby, the president and several of the directors of the Knickerbocker Steamship company, Henry Lundberg, assistant local inspector of steamships, and several others, in some way connected with the disaster, were tried, but only Capt. Van Schaick was punished, by being deprived of his license.

Have you been betrayed by promises of quacks, swallowed pills and bottled medicines without results except a damaged stomach? To those we offer Hollister's Rocky Mountain Tea. 35 cents. Dr. Stone's drug store.

FOREIGN LABOR FOR THE SOUTH

Europeans Will Be Encouraged to Come and Compete With the Negroes.

Washington, June 15.—It seems probable that as a result of the legislation in the closing days of this session of congress many immigrants will have their steps directed into southern fields of labor. Southerners in the house and senate will vote with misgivings in their hearts for a bill which will send a new class of workmen to their harvests. The business of the south demands the presence of Europeans; the sentiment of the south cries out against their coming. Men active in promoting the plan hope that when enough of these aliens have arrived the negro laborer will find that if he would live he must work continuously, and that then there will be no need for Europeans. In other words, there seems to be a feeling that the immigrant is to be used as corrective of the black man—a cure of laziness.

Southerners who are opposed to an influx of immigrants fear, however, that if the immigrant's come and the country pleases them the tide can not be turned back.

An Optimist.

"You're looking particularly pleased with yourself today."

"Yep. Been out hunting for a new flat all day."

"And you found one that just suited you?"

"No. But I'm tickled to death that I don't have to live in the ones I save."

G. A. R. RATES.

The G. A. R. encampment will be held at Grants Pass June 20, 21 and 22. The Southern Pacific has made a one and one-third fare from all points, which from Salem will be, in full, going and coming, \$9.80.

Tickets will be good till June 27, with stop-over privileges at Roseburg on return trip. Everybody can avail themselves of this privilege. The Portland delegation will pass through Salem on the 19th at 11:15 a. m., and those going from Salem plan to join them at that time.

4,000,000 GRAIN SACKS

This Number Will be Needed in Eastern Oregon—Prices Advancing

Umatilla county alone will use over 2,000,000 grain sacks this year, which, at the present price of ten cents each, means an expenditure of over \$200,000 for sacks.

Other Eastern Oregon counties will use at least 2,000,000 more, making a total of over 4,000,000 for this part of Oregon. At an average of ten cents each this means an expenditure of over \$400,000, or nearly a half million dollars for sacks, to say nothing of other expenses of harvesting.

Sacks have heretofore ranged from 5 1/2 to 7 cents each, and this jump to 10 and 10 1/2 cents each in one season is alarming. This increased expenditure of about \$80,000 in Umatilla county alone for this year's sacks has caused farmers to wonder if there is really a scarcity of sacks or sack manufacturing material, or if it is the combination of the manufacturers which has caused the advance in price.

The price of wheat is not advancing, and this extraordinary expense of sacks, the constantly increasing price of labor and other increasing expenses of farming bring the profits down to a minimum, and unless something is done to relieve the situation, the farmers feel that the wheat-growing industry will soon become overburdened with expense.

Deadly Serpent Bites.

Are as common in India as are stomach and liver disorders with us. For the latter, however, there is a sure remedy. Electric Bitters, the great restorative medicine, of which S. A. Brown, of Bennettville, S. C., says: "They restored my wife to perfect health after years of suffering with dyspepsia and a chronically torpid liver." Electric Bitters cure chills and fever, malaria, biliousness, lame back, kidney troubles and bladder disorders. Sold only on guaranteed by J. C. Perry, druggist, Salem, Or. Price, 50c.

TRADE IN FROG SKINS.

They Are Used in the Manufacture of Pocket Books.

New York, June 15.—A most unusual question in classifying frog skins as freight was asked of the freight agents.

THE LIVER QUARANTINE

"TAKING HIS MEALS OUT."

Hurried eating has ruined many a man's stomach. The digestion-destriving process is gradual, often unnoticed at first. But it is only a short time until the liver balks, the digestive organs give way, and almost countless ills assail the man who endeavors to economize time at the expense of his health.

A torpid liver causes a quarantine of the entire system. It locks in the diseased germs and body poisons and affords them full play, inviting some serious illness. In families where August Flower is used, a sluggish liver and constipation are unknown, so are all stomach ailments, as well as indigestion, dyspepsia, heartburn, headaches and kidney and bladder affections. No well-regulated family should be without this standard remedy.

Two sizes, 25c and 75c. All druggists. Sold in Salem by S. C. Stone.

On the Summer Outing Trip

Take a supply of good baking powder and be sure your cooking will be as good as at home. If you haven't tried it, test.

Eppley's Perfection Baking Powder

And you will use it this summer. Ask your grocer for it. It is the guaranteed baking powder in the self-sealing glass jar. The jar is useful afterward.

C. M. EPPLEY, Manufacturer.
Salem, Oregon.

READ AND YOU WILL LEARN

That the leading medical writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, liver complaint, torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their resultants, as bronchial, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherrybark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., late of Cincinnati; Prof. John M. Scudder, M. D., late of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula on the bottle wrapper is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous or harmful agents and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful ingredient in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native, medicinal roots and is safe and reliable.

A booklet of extracts from eminent, medical authorities, endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

of several railroads in this state by their rural agents.

The question is whether a frog skin shall be classed with wild animals' hides, bird skins, fish, or in a class by itself, for which double rates shall be charged.

Dealers have had the skins shipped under each of these headings, but so large has become the industry of sending them east for manufacture into covers for ladies' pocket books that more uniformity is demanded. The extreme lightness of this commodity has contributed to the confusion in classification.

More than half a million officials, business, professional men, bankers, farmers and stockmen have been cured by using Hollister's Rocky Mountain Tea. 35 cents, Tea or Tablets. Dr. Stone's drug store.
